Food Insecurity Above SNAP Threshold

County Level Food Security Dashboard Overview: The County Level section displays annual longitudinal data for Spartanburg County using bar and line graphs, offering a broad view of trends over time. The data reflects the stability, accessibility, and utilization dimensions of food security. Hover over bars or lines to view detailed information including data points and tooltips with indicator descriptions. This section helps analyze trends and changes in food security metrics across Spartanburg County over the years. We used the most recent data available, but variations in data availability caused differences in the time points across indicators, affecting data consistency.
